

GROW individual centile calculators: versions and history (from February 2007)

Updated January 2018

A new version will be available soon and compatible with the Bulk Centile Calculator. This will offer, **in a single application**:

- over 120 countries of origin, ethnicities and regions,
- an outcome field, to record live birth or fetal death, and
- updated coefficients.

Version 5.7.7.1 (2015) **in use currently**

1. Web-based application
2. Separate individual centile calculators available for each of the following countries with updated coefficients:
 - UK
 - New Zealand
 - Australia
 - Ireland
 - USA
 - Netherlands
 - Sweden
 - Spain
 - India
 - Germany
 - Italy
 - Brazil

Versions renumbered to **5.7.X** in line with **new systems and procedures** resulting in downloaded versions being replaced by **web-based versions**.

History currently not available for versions 5.7.1 to 5.7.6.

Version 5.16 (Nov 2011) D/L version expired 31Oct12

1. **User registration database** introduced.

2. **International coefficients synchronised** with GROW chart central server. As a consequence, some international ethnic codes may have been rearranged.
 3. **Coefficients for UK now updated** ref: MR12 02c1.7 (Oct 2011)
-
